GHP FLEXIBLE VERGE MARKER

Durable, High-Visibility Marker for Safe Guidance

pittman[®]

OVERVIEW

The Flexible Curb Marker is a durable, high-visibility solution for guiding pedestrians and vehicles. Made from tough PVC plastic, it offers excellent impact resistance, ensuring it won't shatter if struck.

Equipped with micro prismatic reflectors, the marker provides high visibility day and night. The UV-coated reflectors maintain their bright color and reflective properties over time, even under harsh sunlight.

Ideal for marking hidden driveways, curbs, and other potential hazards, this curb marker is perfect for enhancing safety in various settings.

PRODUCT FEATURES

- Flexible design - withstands some impacts without breaking or shattering
- UV-coated reflectors - protects against UV rays for long-lasting colour quality
- High visibility - micro prismatic reflectors boost visibility in all light conditions
- Durable - made from tough PVC for impact resistance
- Easy installation - install into grass or gravel to mark driveways or kerbs
