Product Code: 741597

REGAL ROPE BARRIER

SET OF 2 WITH ROPE

Stylish, Secure, and Sophisticated Crowd Control

pittman®

OVERVIEW

The Regal Rope Barrier offers a perfect blend of sophistication and functionality, making it an ideal choice for professional and public spaces.

Designed to bring an elegant touch to any environment, these rope barriers are perfect for guiding foot traffic, managing queues, or marking off restricted areas with style.

The set includes two gold-finished posts and a 59-inch red braided rope, creating a luxurious look that fits seamlessly into both modern and traditional settings.

The base features built in rubber floor protectors and is filled with concrete, giving the post stability and ensuring it stays in place even in busy areas. The rope easily clips onto one of the four connection points on each post, making it easy to create the exact layout you need.

PRODUCT FEATURES

> Set of 2 - complete, ready-to-use barrier solution with option to expand

> Stable support - 7.8kg base ensures stability in busy areas

> Versatile connections - four connection points per post, easily customise layouts

> Easy assembly - quick assembly for easy setup or dismantling

> Elegant design - gold finish with crown top with red braided rope for a sophisticated look

4-WAY CONNECTION POINTS
Attach ropes from all angles

ELEGANT BRAIDED ROPE
Sophisticated finish for the barriers, easily attaches via clip-on design

INSTRUCTIONS FOR USE

1. Assemble the Post: Start by screwing the post to the weighted base to get it ready for use.

2. Mark the Holes: Clip the 59-inch rope onto one of the connection points at the top of the post. Each post has four connection points, allowing you to add multiple ropes if needed.

3. Position the Posts: Set the posts where you need them, arranging them in a straight line or any configuration that suits your space.

4. Disassemble for Storage: When the barrier is no longer needed, simply unhook the rope, unscrew the post from the base, and store them easily.
