SILAOS STREET LITTER BIN

LIGHT OAK, MAHOGANY & STEEL

Durable wood and steel bins with minimal maintenance

pittman[®]

OVERVIEW

The Silaos Street Litter Bin offers a stylish and practical solution for waste disposal in public and professional areas. Its modern design allows it to blend seamlessly into various environments.

Constructed with durable steel supports, the bin is built for outdoor use and can be finished with a combination of steel and wood. You can choose between light oak or mahogany finishes to suit your surroundings.

The bin is designed for permanent installation directly into the ground, ensuring long-lasting use in public spaces.

Steel supports are also available in custom RAL colours upon request— contact our sales team for more details.

PRODUCT FEATURES

- Made for green spaces - 50 litre capacity reduces need for constant emptying
- Easy installation - permanent installation directly into concrete
- Long-lasting design - made with robust PEFC oak
- Customisable - contact our sales team for custom RAL colours
